SAME

COMMENTS ON EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

Applicants acknowledges with appreciation the indication of allowability of the claimed invention. In response to the Examiner's Statement of Reason for Allowance in the Notice of Allowance of March 3, 2008, Applicants respectfully submit the following comments.

In the Section titled Allowable Subject Matter on page 2 of the Notice of Allowance mailed March 3, 2008, lines 13-20, the Notice of Allowance states:

For claims 1-12, 15-19:

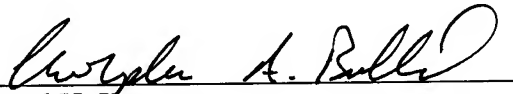

neither the references cited nor the cited references teach, suggest, or in combination of a LSI package having a package structure configured to hold the signal transmission lines and the second coupling parts, the second coupling parts being electrically connected to the first coupling parts by means of mechanical contact, respectively, and the package structure being mounted on the interposer and having a through-opening to receive the LSI to allow the heat dissipation member to be located above the surface of the LSI (claims 1 and 3).

The above quoted language is inconsistent with the recitation in independent Claim 3. For example, the Examiner's Statement of Reasons for Allowance states: "...having a through-opening to receive the LSI to allow the heat dissipation member to be located above the surface of the LSI." Whereas independent Claim 3 recites "...having a through-opening to receive the LSI to allow the heat dissipation member to be located on the surface of the LSI."

Therefore, the above-quoted statement does not apply to Claim 3 or the claims dependent therefrom.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
